

COUNTRY WATCH

Western Weekly:

2nd May 2014

Colleagues,

As you will see from the crime summary below, theft of power tools from outbuildings and sheds is still very much on the radar. As the weather is improving and people are spending time tending their gardens and preparing for planting please ensure you don't become complacent leaving outbuildings insecure. Are all your tools and equipment security marked?

This week has seen the theft of a Shetland pony from the side of the road at Bull Hill near to Norleywood crossroads, on the Beaulieu to Lymington road. This incident happened between 3pm and 3.30pm on Wednesday, 30th April and is an extremely concerning theft as it was in broad daylight that the offenders 'bundled' the light grey and white Shetland pony into a burgundy coloured Ford Transit van. Unfortunately we have only a partial registration number of 'DN05' to go on. The pony is a 4 year old mare with a brand mark of '90' in the saddle area. A reward of £1000 is being jointly offered by the Verderers and owners for information leading to the successful conviction of those responsible. If you saw anything of this incident or know this vehicle or its whereabouts, or have seen a Shetland pony turn up at a field or yard since Wednesday please contact us on 101, or via the Country Watch mobile on 07766 423174.

Kind Regards

Debby Holman
Western Country Watch Sergeant
