

# COUNTRY WATCH

## Western Weekly:

19<sup>th</sup> June 2014

Colleagues,

Since my last newsletter I had the privilege of escorting a group of Junior PCSO's together with PCSO Scott Walker from Totton neighbourhood team who is running the scheme. We took the group to Beaulieu Estate where the head keeper, Pete Stagg, did an excellent job of showing them around the estate and explaining different elements of the countryside and workings of the estate to them. A very informative visit for all concerned and we are grateful for the assistance given by Pete and Beaulieu Estate.

This week I held a meeting for colleagues and partners in the Blashford Lakes area, all interested parties including Angling Clubs, Water Companies, Environment Agency, Estates officers and the Wildlife Trust were in attendance to come up with a strategy to help deal with an increase in poaching of fish in the area, particularly on the Nature Reserve where there is no fishing permitted. The response to the meeting was excellent with all partners keen to help address the problems and all felt the meeting had been worthwhile. We now have a situation where all parties can look out for each other and warn their neighbours of any problems or issues – a bit like a neighbourhood watch scheme for the lakes.

The team had a visit from the HM Revenue and Customs, Road Fuel Testing Unit this week following on from the joint operation we ran with them a couple of weeks ago. They came and showed us their state of the art testing kits which are fitted into their vehicles. These kits can test and show up red diesel even when the diesel has been tampered with to remove the dye. The offender who was caught running a van on red diesel at our last operation, ended up having to pay £533 on the spot to be permitted to remove the vehicle – not to mention the need to have the fuel filter changed and the fuel system flushed through to remove all traces of the red dye. I'm sure you will agree it's not worth taking the risk. We will continue to run the joint operations both with HMRC and with DVSA as we have done in the past.

Of particular concern this week is the incident detailed below where a young lady walking her dog was followed and then approached by a male asking about her dog. When she returned to her car, a van with another male was parked so that she could not access her boot to put the dog away. She believes the males were intending to steal her dog, luckily, an NFDC van entered the car park at that moment and the males drove off in their van. Please be vigilant when walking your dog. Always take your mobile with you and call police if you think you're being followed in this way. I have heard a number of reports from other counties where peoples dogs are stolen whilst out walking – generally when they are off the lead though.

Next week, I am taking a week off so will not be in the office or replying to emails. Should you need help or advice then please contact the Country Watch team on 07766 423174 or via [countrywatch@hampshire.pnn.police.uk](mailto:countrywatch@hampshire.pnn.police.uk). Don't forget, for crime in progress 101 or 999 should be your first port of call.

Kind Regards

Debby Holman  
Western Country Watch Sergeant

## Rural Theft

- 03/06 Sopley Theft of kissing gate
- 13/06 Sopley Theft of another kissing gate
- 14/06 Totton Garage broken into and chainsaw, leaf blower and strimmer stolen
